

ID	Euphemism Candidates	Sentences Associated
1	cannabis	<ul style="list-style-type: none"> hash is the most popular <u>cannabis</u> product that circulates the streets here symptoms stop after cessation of <u>cannabis</u> use im 18 and use lsd and <u>cannabis</u> often smoking <u>cannabis</u> generates a large amount of unwanted side products of which carcinogenic compounds are the most dangerous
2	mushrooms	<ul style="list-style-type: none"> his main products included amphetamines ecstasy <u>mushrooms</u> and crystal meth vendor review tripwithscience vial liquid <u>mushrooms</u> ~9mg of psilocybin lsd mdma <u>mushrooms</u> especially ketamine and cocaine im having trouble deciding whether to order 100 tabs of acid or 50 tabs and a half ounce of <u>mushrooms</u>
3	md	<ul style="list-style-type: none"> can easily smash through 15 in a night id be a bit fucked up but the <u>md</u> high isnt as good anymore the crystals do have a <u>md</u> smell though but just a bit overpowered by the weed smell i mixed in 7g of red <u>md</u> with 3tsp of lemon juice and a dash of water and freezed it over night so i took <u>md</u> last night not for the first time and was thinking about how music sounds so much better when youre high
4	l	<ul style="list-style-type: none"> price value was good paid around aps26 the only person i know that sells l around here charges aps10 per 100ug digusting really great for smoking at night i rolled a 2g l and it put me to sleep lmao sparked an l of just blueberry kush and was so high i reanalyzed this entire review like 3 times while watching tv
5	met	<ul style="list-style-type: none"> so i have 500mg of 4acodmt and 250mg of <u>met</u> in my cart on lysergi 25inboh + ho <u>met</u> = lots of hallucinations pretty clean mindset i preferred 4 ho <u>met</u> to 4 aco dmt since aco made me anxious when i snorted it
6	crack	<ul style="list-style-type: none"> anyways days later he sends me a pinched gram but had forgotten the <u>crack</u> rock i went with his cheaper oraganic strain green <u>crack</u> for \$200 an oz now the green <u>crack</u> is also great fruity scent and is extremely smooth dab meth and <u>crack</u> both operate on flooding the brain with dopamine or preventing the absorption respectively
7	alcohol	<ul style="list-style-type: none"> does anyone have successful experience making an <u>alcohol</u> alprazolam solution its an interesting chemical and experience thats so completely different than <u>alcohol</u> or cannabis only two drugs ive used so far in all aspects i left some speed dissolved in <u>alcohol</u> in a glass overnight can i buy <u>alcohol</u> on the dark net <u>alcohol</u> and xanax no effect
8	cigarettes	<ul style="list-style-type: none"> i am not a regular smoker but the last few times i have done shrooms a <u>cigarette</u> would make the trip even more amazing i was thinking ive heard of people dipping <u>cigarettes</u> in pcp to make it smokeabole could the same done with mxe <u>cigarettes</u> felt amazing i felt so much love it was defiantly one of the best xtc pills i have taken
9	pressed	<ul style="list-style-type: none"> im primarily looking at their <u>pressed</u> pills you can grab 50 from them and it would cost you less than \$250 domestic usa <u>pressed</u> mdma vendors 5 x 3mg xanax gg249 price 1499 including shipping product received 5 x gg249 3mg <u>pressed</u> replicas xanax bars all 5 intact no broken bars
10	recovering	<ul style="list-style-type: none"> i have been completely abstinent from all drugs besides lsd for over 18 months and i am a <u>recovering</u> addict im a <u>recovering</u> heroin addict so i know what that looks like at least for me the nod are most kratom users regular users or <u>recovering</u> opiate addicts
